- ▶ Focus areas: Web Development, Business Analysis, Database Systems & Software Engineering
- ▶ Final year — actively completing industry-level projects

Completed ICT Technician – NVQ Level 04

2023

Technical College – Balapitiya

- ▶ Covered computer hardware, software installation, networking fundamentals, and ICT support skills
- ▶ Completed practical assessments aligned with NVQ Level 04 competency standards

Completed Building Career Skills (English)

2020

Technical College – Balapitiya

- ▶ Developed professional English communication skills for workplace and career readiness
- ▶ Focused on business writing, spoken English, and interview preparation

INTERNSHIP & TRAINING

Practical Training — Data Entry & Administrative IT Tasks

2023

Zonal Education Office – Ambalangoda

- ▶ Performed computer-based data entry tasks, maintaining accurate records in office systems
- ▶ Carried out Excel-based data management including spreadsheet creation, data sorting, and reporting
- ▶ Handled typing assignments and document preparation related to zonal education administration
- ▶ Applied ICT skills from NVQ Level 04 module in a real government office environment

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), Web Design

Backend: PHP, Java

Databases: MySQL

Tools & Software: Advanced Excel, MS Office Suite, Canva, NetBeans IDE

Design: Figma (UI Design)

Other: Project Management

Languages: Tamil (Native) · English (Fluent) · Sinhala (Fluent)

PROJECTS

Restaurant Website

HTML · CSS

- ▶ Designed and developed a fully responsive restaurant website with an attractive menu display, contact section, and smooth navigation using HTML and CSS.
- ▶ Applied modern layout techniques including Flexbox and CSS styling to create a professional, mobile-friendly user interface.

Food Ordering Platform with Database

HTML · CSS · JavaScript · MySQL

- ▶ Built a dynamic food ordering system integrated with MySQL for live menu management, order placement, and order history tracking.
- ▶ Designed an interactive frontend with HTML, CSS, and JavaScript, connected to a backend database for real-time data operations.

Hospital Management System

Java · NetBeans

- ▶ Developed a desktop-based hospital management application using Java in NetBeans IDE, supporting patient registration, appointment scheduling, and doctor management.
- ▶ Implemented full CRUD operations with a user-friendly GUI to manage hospital records efficiently.

Hotel Management System

Java · NetBeans

- ▶ Built a hotel management desktop application using Java and NetBeans IDE to handle room booking, guest check-in/check-out, and billing operations.
- ▶ Designed an interactive GUI with Java Swing to provide smooth navigation across all hotel management modules.

Catch the Ball Game

Java · NetBeans

- ▶ Developed an interactive 2D game using Java in NetBeans IDE where the player controls a paddle to catch falling balls, implementing game logic, score tracking, and level progression.

Scientific Calculator

C#

- ▶ Built a fully functional scientific calculator using C# with support for arithmetic, trigonometric, and logarithmic operations through a clean Windows Forms interface.

CERTIFICATIONS

Web Design for Beginners – HTML, CSS & JavaScript 2025

University of Moratuwa

User Interface Design with Figma 2025

Alison

Python 101 for Data Science 2026

Cognitive Class – Powered by IBM Developer Skills Network

Certificate in ICT Technician – NVQ Level 04 2023

Technical College – Balapitiya

Certificate in Building Career Skills (English) 2020

Technical College – Balapitiya

CORE COMPETENCIES

Problem-Solving · Analytical Thinking · Team Collaboration · Adaptability · Effective Communication · Fast Learner · Attention to Detail · Goal Achiever
